INTERIM USE PROCEDURE¹ FOR THE CITY OF LAKE ELMO

The Lake Elmo City Code was established to protect current and future residents from the negative impacts of improper development and to ensure a positive future for the city. An interim use permit is a mechanism that allows a use that is presently acceptable, but that with anticipated development or redevelopment or other significant change, will not be acceptable in the future or will be replaced by a permitted or conditional use allowed within the respective district. It is important to understand that a proposed use may be acceptable in some locations but unacceptable in others. All applications are viewed on a case-by-case basis.

In order to successfully receive an interim use permit, there are a number of steps that must be followed:

1. Contact city staff to discuss your proposed interim use and obtain a land use application from City Hall.
2. Put together an informational packet (described herein) that outlines your request and outlines all reasons as to why the conditional use permit should be granted.
3. Submit your completed packet to staff by the applicable due date for review. Staff will examine your submittal to determine if the application is complete, and contact you if additional information is required or was omitted. It is to your advantage to submit materials as early as possible so staff can assist you in meeting all requirements. Applications found to be incomplete as of the due date will likely not be reviewed until the following month².
4. Staff will address completed applications by requesting comments from partnering agencies, scheduling meetings, writing reports, and notifying a public hearing. Staff will always strive to place your application before the planning commission as early as possible, but not until all background work is completed.
5. The Planning Commission will review the request at one of their meetings (held on the 2nd and 4th Monday of every month³) and forward a recommendation onto City Council (1st and 3rd Tuesday of every month³). Applicants are advised to attend both the Commission meeting and the Council meeting and be open to questions that might be posed regarding the request.
6. The City Council will consider the request and either grant or deny the interim use permit.

Above all else, it is imperative that you begin your preparations as early as possible to insure your application is complete at least one month prior to the desired date for planning commission review. State mandated requirements for public hearing notifications do not allow the City to accelerate the review process which typically takes 1.5 months from the date of application (longer if the item is complex or is tabled during the review process). The City Council has established a **non-refundable fee** for processing new interim use permit applications, and

¹ The information provided in this document is intended to be a correct statement of the law as set forth in the Lake Elmo City Code and the laws of the State of Minnesota. However, the applicant should refer to the actual sources and consult with their own legal advisor regarding applicability to their application. In providing this information, the City makes no representations nor provides any legal advice or opinion.

² Minnesota State Statute 15.99 requires local governments to review an application within 15 business days of its submission to determine if an application is complete and/or if additional information is needed to adequately review the subject request.

³ Please note that meeting dates are subject to change due to holidays, lack of quorum, etc. Please contact City Hall to confirm all dates and times.

renewals to existing interim use permits. Please consult the current fee schedule on the City website.

Interim use permits can be requested for many different uses in all areas of the City which makes it very difficult to generate at handout that is applicable in all situations. It is strongly recommended that an applicant meet with staff prior to putting an application together to identify components listed herein that may be exempted, and to identify additional information that may be needed in order to deem your application complete.

At a minimum, the following materials must be submitted prior to deeming an application complete:
