- 7 Laverne Avenue

CITY OF LAKE ELMO COMBINED CITY HALL & PUBLIC SAFETY FACILITY

The new Lake Elmo City Hall / Public Safety Facility combines City Hall staff and functions, the entire Fire Department, and a satellite office for the Washington County Sheriff's department. This co-location involves renovating and expanding the City-owned Brookfield Office building to concentrate civic resources into a single structure at the historic core of the city. In addition, the Public Works facility will also be expanded to accommodate City growth and expanded service needs.

TOTAL ANTICIPATED PROJECT COST: \$14,600,000
DESIGN COMPLETION: Late summer 2021
CONSTRUCTION COMPLETION: Fall of 2022

MEETING THE DEMANDS OF AN EVOLVING FIRE SERVICE

Lake Elmo currently has two fire stations, Fire Station #1 at 3510 Laverne Ave. N. and Fire Station #2 at 4259 Jamaca Ave. N. This project will consolidate these two stations into a single, state of the art station that will meet the needs of our community and firefighters today and into the future. The building is designed to accommodate increasing call volumes, meet the demands for training and to support our evolving role as all hazard responders.

Due to the changing environment of fire department staffing needs and the impacts of that in relation to incident response times and budget responsibility, the fire department is consolidating to a single station which will allow the department the ability to transition to a staffing model that provides 24/7 coverage from the single station. This change requires the updated facilities like staff dorm rooms, day room and kitchen area, fitness room, staff workspaces and offices.

The current fire stations are too small to accommodate modern apparatus and equipment and cannot provide adequate health protections for our firefighters.

A FUNCTIONAL FIRE STATION

A new, single, state-of-the-art station will meet the needs of our community and firefighters today and into the future. Designed to accommodate our evolving role as all-hazard responders it will:

- Modernize our facilities following best practices in station design.
- Enhance firefighter training with training features incorporated into the building.
- The addition of living quarters will allow the department to transition to a staffing model that provides 24/7 coverage from the single station.
- Improve response times and overall department operations.

DESIGNED FOR FIREFIGHTER HEALTH AND SAFETY

- Distinct spaces to properly decontaminate gear and equipment. Focus to reduce staff exposure to firefighting carcinogens and other toxic materials.
- Properly ventilate the apparatus bay to reduce staff exposure to diesel exhaust and other harmful fumes.
- Space that supports the physical and mental health of staff.
- Clear separation between public and private spaces.

Lake Elmo City Hall, built in 1986, is a very small 2,806 SF. There are insufficient offices for all staff members and the restrooms are not accessible. The council chambers are small, do not provide sufficient space for department heads or members of the public, and lack modern technological updates. City staff have long outgrown this building and have since moved into the Brookfield Building located across the parking lot.

The Brookfield Building was purchased by the City in 2018 as a method of maintaining city functions next to the outgrown City Hall at a lower cost alternative to new construction. It was constructed in 1980 and will require a major overhaul to increase its useful life.

AN EXPANDED AND IMPROVED CITY HALL

- Improved service accessibility
- Community room available for public use
- New council chambers with updated technology
- Additional conference rooms
- Co-locate Washington County Sheriff staff
- Office space for growth of city staff
- Accessible restrooms.
